Renewed Focus on Quail Management

The distinctive ring of the northern bobwhite once was a symbol of the outdoors life in Arkansas. Many older hunters who hear the call are immediately drawn back to the days of their first hunting experiences. But today's young hunters seldom get to hear the persistent whistle that rouses fond memories in their fathers and grandfathers.

The Arkansas Game and Fish Commission is reinvigorating our efforts to restore robust quail populations in Arkansas. This is one of the largest conservation challenges we've faced in many years. The changes needed in habitat must be made across an entire landscape in an organized manner if we are to succeed. All research and tools needed to launch a successful recovery effort have been assembled in a new Strategic Quail Plan, but we need your help.

We need partners willing to restore and manage portions of their land for quail and the many other species that thrive only in open grassy habitats. Without including private lands in quail restoration efforts, this conservation challenge becomes all but impossible.

The good news is that quail management is not an all-or-none proposition. The same habitat needed for quail and other grassland animals also is essential for deer as fawning habitat and to turkeys for bugging areas to raise their young. The AGFC has many resources available to private landowners to help with quail restoration and other wildlife management objectives. There's even a special section of biologists devoted to helping landowners maximize the potential of their private land for wildlife such as quail. These regional private lands biologists can not only tell you what you need to help restore Arkansas's quail populations and quail hunting tradition, but can offer advice on available funding to conduct the work. To find out more about the Private Lands Program and our quail restoration efforts, visit www.agfc.com/habitat.

It's going to take determination, but we can bring back the bobwhite in Arkansas.

Licensing and Permits

What kinds of licenses or permits do I need to hunt in Arkansas?

If you are 16 or older, an Arkansas hunting license is required to hunt wildlife unless you are on a licensed game-bird shooting resort that supplies pen-raised birds. The license must be carried with you. You may not possess a license that belongs to someone else or one that has been altered, backdated or counterfeited. If you are a nonresident, you may not possess a resident license. If you guide, aid or assist someone else for pay or other value, you must have a guide license.

Where can I find a license dealer?

Sporting goods stores, hunting and fishing supplies stores, some discount chains and AGFC offices listed on page 1 sell most licenses.

How do I buy a license?

Licenses are available over the counter at AGFC regional offices, nature centers and many sporting goods stores across the state. You also may buy a license by phone or online 24 hours a day, 7 days a week.

- Phone – Call **501-223-6349** between 8 a.m. and 4:30 p.m., or call **800-364-GAME (4263)** 24 hours a day, 7 days a week.

- Online – Visit **www.agfc.com**, click “Licenses and Permits,” then click “Buy a License.”

Telephone and online purchases must be made by credit card. Small game and fishing privileges become effective immediately. A valid license obtained by mail from the AGFC must be in

your possession before hunting big game (deer, turkey, bear, elk or alligator). Lifetime, disability and commercial licenses are not available by phone or online.

How do I replace a lost license?

You may be able to get a replacement for a lost license at a reduced cost. Call **501-223-6349** or **800-364-4263** during office hours for details.

Do I qualify as a resident?

A resident is any person who physically inhabits a bona fide residence within Arkansas for at least 60 days and declares themselves a full-time resident of Arkansas.

Also, the following students (who must carry proof of full-time enrollment in schools, colleges or universities while hunting or fishing in Arkansas) are eligible to purchase annual resident licenses: resident foreign exchange students attending school outside of Arkansas; nonresident foreign exchange students attending school in Arkansas; residents of Arkansas enrolled as full-time students in colleges and universities outside of Arkansas; and nonresidents enrolled as full-time students in colleges and universities in Arkansas.

Ownership of Arkansas real estate by a person living outside the state does not qualify the owner as a resident.

Active-duty military personnel assigned to duty stations in Arkansas are eligible to purchase annual or trip resident privileges for hunting and fishing. Active-duty servicemen and women who were Arkansas residents at the time of entering service are eligible to purchase annual or trip resident privileges for hunting and fishing, regardless of where they are stationed.

Are there any additional residency requirements for licenses?

The Resident Special Guide License and Non-expiring Lifetime Resident Hunting and Fishing Sportman's permit have a one-year residency requirement. The 65 Plus Lifetime Hunting License and the 65 Plus Lifetime Combination License have a 60-day residency requirement.

What are disability licenses?

Resident disabled hunters may purchase a three-year disability hunting license for \$25 or a three-year combination license for \$35.50 (includes fishing privileges). Proof of 60 days Arkansas residency and proof of 100 percent disability from the Social Security Administration, Department of Veterans Affairs or the Railroad Retirement Board is required.

These licenses expire three years from the date of purchase. These licenses are only available through the Little Rock AGFC Office. Other required permits and stamps must be purchased annually.

Which licenses do hunting guides need?

A guide is someone who guides hunters for pay or other consideration. An Arkansas resident may guide hunters on land not owned or leased by the AGFC with a Resident Guide License (\$25).

An Arkansas resident, who provides proof of at least one year of residency, may guide hunters, but not waterfowl hunters, on land owned or leased by the AGFC with the Resident Special Guide License (\$150). There is no nonresident equivalent of this license.

A nonresident may guide hunters on land not owned or leased by the AGFC with the Nonresident Guide License/Hunting (\$150).

Hunting guide licenses expire June 30 and do not include hunting privileges. These licenses are available from AGFC offices listed on page 1.

Who needs a hunter education card?

A hunter born after 1968 must carry a valid hunter education card, unless 'HE-VERIFIED' is noted on your hunting license.

Hunters under 16 do not need to have a card if they are under the direct supervision of an adult hunter who is at least 21 years of age and possesses valid hunter education certification, or who was born before 1969. Arkansas honors the home state hunter education cards of nonresidents. Call 800-482-5795 or check www.agfc.com for a class schedule.

Which commercial or wildlife-related activities require a license or permit?

Falconers, fur dealers, wildlife breeders and dealers and commercial wildlife hunting resorts must all have special permits. A complete list of permits is available at tinyurl.com/AGFCCommerciallicenses. Call 800-364-4263 ext. 6386 during business hours for more information.

Licenses are nontransferable and nonrefundable.

Nonexpiring Lifetime Resident Hunting and Fishing Sportsman's Permit (\$1,000)

Entitles purchasers of any age to the privileges of the Resident Sportsman's License (hunting) and the Resident Fisheries Conservation License (fishing). Fees for trout permits, leased lands permits, alligator permits, elk permits, state waterfowl stamps and wildlife management area permit hunts are waived with this license. License holders must apply, however, for WMA hunts, be successfully drawn and return notification of acceptance before being issued a permit. HIP registration, resident trapper permits and federal waterfowl stamps are still required with this license.

This permit is available only from the AGFC Little Rock Office. Applicants must present proof of identification in the form of an Arkansas driver's license or state ID card and Arkansas residency for at least one year. Applications are available at AGFC regional offices or by calling 800-364-4263 or 501-223-6388.

65 Plus Lifetime Hunting License (\$25, PLH)

Entitles Arkansas residents 65 or older to the privileges of the Resident Sportsman's License. A Resident Trapper's Permit is required to trap furbearers. HIP registration is required to hunt migratory game birds. To hunt waterfowl, a state lifetime waterfowl permit (purchased once after age 65) and federal waterfowl stamps are required in addition to HIP. Proof of applicant's age and 60 days of Arkansas residency are required to apply for this license.

65 Plus Lifetime Combination License (\$35.50, PLC)

Entitles Arkansas residents 65 or older to the privileges of the resident Sportsman's License (hunting) and the Resident Fisheries Conservation License. A Resident Trapper's Permit is required to trap furbearers. HIP registration is required to hunt migratory game birds. To hunt waterfowl, a state lifetime waterfowl permit (purchased once after age 65) and federal waterfowl stamps are required in addition to HIP. A lifetime trout permit (purchased once after age 65) must be purchased to fish in certain waters. Proof of applicant's age and 60 days of Arkansas residency are required to apply for this license.

The lifetime waterfowl permit and lifetime trout permit are available from the AGFC Little Rock Office and AGFC regional offices (page 1). If you wish to purchase a license in person, bring proof of your age, such as a driver's license, birth certificate or military record and proof of 60 days of Arkansas residency, in the form of an Arkansas driver's license or state ID card. Applications and information are available by calling 800-364-4263, 8 a.m.-4:30 p.m., Monday-Friday or online at www.agfc.com.

65 Plus Annual Sportsman's License (\$3.50)

Entitles Arkansas residents 65 or older to the privileges of the Resident Sportsman's License. A Resident Trapper's Permit is required to trap furbearers. Valid through June 30. Six deer tags and two turkey tags are included with this license. HIP registration is required to hunt migratory game birds. To hunt waterfowl, a state waterfowl stamp and federal waterfowl stamp are required in addition to HIP. Proof of applicant's age and 60 days of Arkansas residency are required to apply for this license.

Military Lifetime Licenses

Retired and disabled veterans are eligible for lifetime licenses and permits earlier than other hunters and anglers.

Resident Military Retiree Lifetime Licenses are available at any AGFC Regional Office. Sportsmen must be at least 60 and show proof of 60 days Arkansas residency and retirement from a branch of the U.S. Armed Services. Please contact AGFC Regional Offices for more information.

Resident Disabled Military Veteran Lifetime Licenses are available at the Little Rock Office only. There is no age requirement for this license,

but sportsmen must show proof of 60 days Arkansas residency and proof of 100% total and permanent service-connected disability. Please contact the Little Rock Office for more information.

Military Lifetime trout and state waterfowl stamp permits, federal waterfowl stamps, resident trapping permits and HIP registration also must be obtained to hunt, trap or fish for certain game species. These permits are available at all AGFC Regional Offices.

Reciprocal Licenses

Mississippi and Arkansas recognize the validity of Arkansas resident hunting licenses on Mississippi lands west of the main channel of the Mississippi River. Mississippi resident hunting licenses are valid on Arkansas lands east of the main channel. Resident license holders of either state may hunt migratory waterfowl on flowing waters of the Mississippi River, on waters accessible by boat from the main channel of the Mississippi River or on state line lakes when the season is open in both states. The St. Francis, White and Arkansas rivers and their oxbows are excluded from this agreement. Floodwater is not included in this agreement. Hunters must obey the regulations of the state where they're hunting.

See pages 39, 49 and the tags section for tagging requirements.

Tennessee and Arkansas recognize the hunting licenses of both states on the flowing waters of the Mississippi River, adjacent waters which are accessible by boat from the river proper and the old river chutes that form a common boundary. Excluded are wildlife management areas established by either state and the Wolf, Loosahatchie, Hatchie, Forked Deer and Obion rivers. Migratory waterfowl may be hunted on these waters by a license holder of either state when the season is open in both states. Hunters may not hunt from, nor attach any device or equipment to, land under the jurisdiction of the state in which they are not licensed. Hunters must obey regulations of the state that issues the license. Holders of nonresident licenses issued by either state have the same privileges as a licensed resident.

Deferred Hunter Education Codes (DHE)

Hunters 16 and older who were born after Dec. 31, 1968 must have hunter education certification. A free Deferred Hunter Education Code (available through any license purchasing agent, by phone or online) can take the place of this requirement for one year:

- The hunter must be at least 16.
- The hunter must have been born after Dec. 31, 1968.
- The hunter must possess a valid Arkansas hunting license while hunting.
- The hunter must be in the direct supervision of a licensed hunter at least 21 years old who is either certified in hunter education or was born on or before Dec. 31, 1968.
- The hunter may not have been convicted or forfeited bond for prior hunter education certification violations or other AGFC-sanctioned hunting privilege revocations.
- The code expires June 30 each year.

General Regulations

It is not legal to:

- interfere with AGFC employees or agents performing their duties or flee from an officer.
- aid, accompany or abet someone else in a violation.
- hunt or fish after license revocation or suspension.
- transport illegally taken wildlife across state lines. You may ship wildlife from Arkansas if you display on the package your name, address, the species and quantity of wildlife.
- fail to comply with the terms of a Commission-issued permit.
- buy or sell wildlife (or their parts) except for pelts or carcasses of furbearers, squirrel tails and pelts, rabbit pelts, turkey bones, deer antlers, deer hides, elk antlers, elk hides or feathers not protected by federal regulation 50 CFR §20. For more information, refer to AGFC Code of Regulations 05.04.
- hunt 30 minutes after sunset to 30 minutes before sunrise, unless legally hunting furbearers. Trappers may carry a .22 caliber rimfire firearm while checking sets at night. Refer to the 2015-16 Arkansas Waterfowl Guidebook for shooting hours for migratory game birds and waterfowl.
- point, aim or shoot a firearm or archery equipment across, from or within 100 feet of the centerline of any city, county, state or federally maintained road (see exceptions below).
- **Exception 1:** Trappers may use legal firearms to harvest animals caught in legally set foothold and Conibear (body-gripping) traps.
- **Exception 2:** Licensed/permitted falconers may hunt with and trap birds of prey in accordance with state and federal falconry regulations.
- shine an artificial light from a public road, street, highway or within a wildlife management area.
- hunt or possess a hunting device in state or national parks. Exceptions are Buffalo National River WMA (page 82) and Hobbs State Park-Conservation Area (page 95).
- possess wildlife taken by someone else, unless accompanied by a signed statement from the taker, stating name, address, species, date taken and license number. This requirement also applies to deer camps, commercial storage/processing facilities and taxidermists.
See example on page 29.
- hunt swimming deer. Deer may not be driven or captured from a boat. Deer may not be hunted from watercraft on public waters.

Interstate Wildlife Violator Compact

Violators who lose hunting and fishing privileges in any state participating in the compact may not be eligible to hunt and fish in Arkansas as well. Violators of Arkansas wildlife laws who lose their hunting and fishing privileges also may lose them in other states who have signed the compact. This code does not apply to any suspensions or convictions a person received before the effective date of Arkansas joining the compact, July 1, 2014. Visit www.agfc.com/enforcement/pages/iwvc.aspx for more information.

Violation Points

A person convicted of violating an AGFC hunting, fishing or boating violation or a federal wildlife regulation in Arkansas may be assessed violation points in addition to other fines and penalties. Arkansas residents convicted of wildlife violations in another state that is a member of the Interstate Wildlife Violator Compact also may receive violation points on their Arkansas record.

Point values will be assessed as follows:

Class of Offense	Points
Class 1	6
Class 2	12
Class 3	18
Class 4	30
Class 5	99

Visit www.agfc.com/enforcement/Documents/agfc_code_of_regulations.pdf for penalty classifications.

If, during any three-year period, a person accumulates 12 or more violation points, they will be ineligible to participate in any permit hunts conducted by the AGFC.

If, during any five-year period, a person accumulates 18 or more violation points, they may have their hunting and fishing rights suspended in Arkansas.

License suspension terms are as follows:

Points Accumulated in Five Years	Hunting and Fishing License Suspension
18-29	1 year suspension
30-36	2 years suspension
37-75	3 years suspension
76+	5 years suspension
99 (resulting from Class 5 offense)	Lifetime revocation of hunting and fishing rights

If a person has their Arkansas hunting or fishing license suspended three times, they may receive a lifetime revocation of all hunting and fishing rights.

Join Steve "Wild Man" Wilson and Trey Reid of the AGFC as they talk about the latest happenings in hunting, fishing and other outdoor activities in Arkansas.

Check local radio listings for air times.

Wildlife Regulations

You may not hunt wildlife:

- except during open hunting seasons.
- from a boat at night.
- from an aircraft.
- that is fleeing from floods or fires.
- using deadfalls, drugs, chemicals, poisons, booby traps or explosives.
- from a moving motorized land vehicle.
- from or across the main levee of the Mississippi River and Arkansas River from the Louisiana border to the intersection of state Highway 11 (north of Grady in Lincoln County).
- using electronic tracking or telemetry equipment to locate wildlife.
- using computer-assisted hunting equipment.

Closed Seasons

There are no open seasons for any species not discussed in this or any other Arkansas Game and Fish Commission regulations guidebook.

Endangered Species

For information on endangered and threatened species of Arkansas, visit <http://tinyurl.com/AGFCendangeredspecies>.

Importing Wildlife

It is illegal to import native or exotic wildlife into Arkansas without proper AGFC permits. For more information, call 800-364-4263 or visit tinyurl.com/AGFCcaptivewildlife.

Wildlife Pets

It is illegal to catch, trap or possess deer of any age. However, deer that were captured prior to July 1, 2012 may be retained until their death. For information on keeping native wildlife as pets, visit tinyurl.com/AGFCcaptivewildlife.

Nuisance Animals

Beaver, coyote, muskrat, nutria, opossum, raccoon, striped skunk, squirrel and nongame wildlife other than migratory birds and endangered species that are causing damage to property may be taken during daylight hours or trapped the entire year.

A Depredation Permit is required to kill, trap or shoot nuisance game animals other than beaver, muskrat, nutria, coyote, opossum, raccoon, squirrel and striped skunk outside of the hunting and trapping seasons. Available at all AGFC regional offices (found on page 1).

Live traps: Nuisance animals may also be removed by landowners (or their designees) at any time without a Depredation Permit using live traps. Trapping in towns must be in compliance with municipal ordinances. Wildlife must be released unharmed outside the municipality's boundaries within 24 hours. Live traps must have ONE of the following permanently attached:

- Trapper's name and address,
- Trapper's driver's license number,
- Trapper's hunting license number, or
- Trapper's vehicle license plate number.

Release of Animals into the Wild

Wildlife may not be released into the wild without prior AGFC approval. For more information, visit <http://tinyurl.com/AGFCcaptivewildlife>.

Feeding and Baiting Wildlife

Baiting is defined as the direct or indirect placing, exposing, depositing, distributing or scattering of salt, grain or other feed that could serve as a lure or an attraction for wildlife to, on or over any areas where hunters are attempting to take them. It is legal to feed wildlife, with these exceptions:

- Bears may not be fed or baited for any reason, including photography or viewing, unless it is 30 days before bear season through the end of bear season on private land in bear zones 1, 2, 5 and 5A. See page 39.
- Baiting is not allowed on wildlife management areas.
- Migratory birds, wild turkeys, waterfowl or crows may not be hunted over bait if the hunter knows, or should reasonably know, the area is baited.
- An area is considered baited for 10 days following complete removal of the bait.
- Alligators may not be fed or baited for any reasons, including hunting, photography or viewing.

Wanton Waste

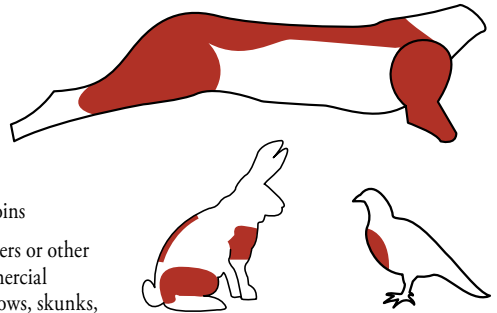

It is illegal to discard (or allow to go to waste) any edible portion of fish or game animals taken.

Edible portions are:

- Game mammals – front quarters, hind quarters, loins and tenderloins
- Game fish – fillets
- Game birds – breasts
- Frogs – hind legs
- Alligators – tail, legs, flanks, loins and tenderloins

It also is illegal to discard any portion of furbearers or other game animals that has legal marketable or commercial value, EXCEPT: rough fish, bobcats, coyotes, crows, skunks, squirrel pelts, rabbit pelts, turkey bones, deer antlers, deer hides, elk antlers, elk hides and feathers not protected by federal regulation 50 CFR §20. Wildlife causing damage to property that are killed in accordance with nuisance wildlife regulations are not subject to these requirements.

It also is illegal to dispose of unused portions of game animal carcasses on cemetery property; in streams; rivers, ponds and lakes, or within 50 yards of the center line of a public road.

Failure to report a hunting related incident

It is unlawful for persons to fail to immediately report a hunting-related incident involving personal injury above basic first aid treatment to the Arkansas Game and Fish Commission so an investigation may be conducted.

If the incident involves only one individual and they are admitted to the hospital and incapacitated for any length of time, the incident should then be reported as soon as possible.

To report hunting related incidents, please call 800-364-4263.

Property Regulations

Hunting Near a Residence

Hunters lawfully present through ownership or lease agreement may hunt on their own property, regardless of distance to another person's residence.

However, all other hunters using firearms within 150 yards of a residence or using archery equipment within 50 yards of a residence must have written permission from the owner or occupant of that residence.

Hunting on Private Property

Find out who owns the land or water and get verbal or written permission (see example on page 29) from the landowner or leaseholder before hunting, fishing, trapping or releasing hunting dogs or pursuing wildlife with dogs on private property.

Written permission is not required if the person hunting is a relative of the landowner or lease holder and permission can be verified.

See page 73 for information on inholdings.

Posting Land Requirements

Who may post property? The owner or lease holder.

How should property be posted? By enclosing land with a fence.

If you are posting forest land:

1. Signs may be placed not more than 100 feet apart and at each road entrance. The signs shall bear the words "POSTED" and/or "NO TRESPASSING" in letters at least 4 inches tall. Signs shall be readily visible to a person approaching the property.

2. Vertical paint marks at least 8 inches in length may be placed on trees or posts no more than 100 feet apart and at each road entrance. The paint marks shall not be less than 3 feet nor more than 5 feet high, and shall be readily visible to a person approaching the property.

If you are posting cultivated land, orchards, pasture land, impoundments or anything else:

Same as (1) or (2) but the distance between signs or paint marks may be up to 1,000 feet.

Which paint should be used? Posting paint is purple tree-marking paint prescribed by the Arkansas Forestry Commission, 501-296-1940. Most paint stores can help.

Legal Hunting Equipment

Archery

Long, recurve and compound bows: Must have at least a 35-pound pull. Scopes, string locks and mechanical string releases may be used. Big game hunters must use arrowheads at least 7/8-inches wide (mechanicals OK). Arrows and Arrowheads containing firearm ammunition or poison may not be used.

Crossbow: Crossbows must have at least a 125-pound pull and a mechanical safety. Scopes may be used. Big game hunters must use arrowheads at least 7/8-inches wide (mechanicals OK). Arrows and Arrowheads containing firearm ammunition or poison may not be used.

Muzzleloader

To be used for deer hunting, muzzleloading rifles must have a barrel 18 inches or longer and be .40 caliber or larger. Magnifying sights may be used. The use of shot is not legal. Legal muzzleloaders use flint, percussion cap, primer or electronic pulse, are loaded through the muzzle and are not capable of firing a cartridge.

Hunters may use muzzleloading handguns with barrels 9 inches or longer that are:

- .45 caliber or larger if they shoot conical bullets (200 grains or heavier), or
- .530 caliber or larger if they shoot round balls.

A hunter may carry a muzzleloading handgun of any caliber as backup to a muzzleloading rifle.

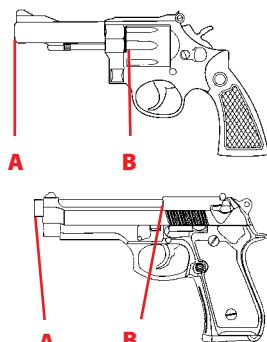

Modern Gun

Modern guns may be used for deer EXCEPT:

- buckshot in a .410 shotgun.
- shot smaller than No. 4 buckshot in any shotgun.
- rimfire cartridges, military or full metal jacketed ammunition.
- centerfire rifles or handguns smaller than .22 caliber.
- handguns with barrels shorter than 4 inches. See illustration, right.
- air rifles.

In zones 4, 4B, 5 and 5B, modern guns are restricted to:

- shotguns .410 or larger with slugs,
- handguns with barrels 4 inches to 10 inches long chambered specifically for straight-walled centerfire cartridges loaded with lead, lead alloy, soft nose and/or hollow point bullets .30 caliber or larger.
- Legal muzzleloading rifles.

The barrel of a handgun must be at least 4 inches measured from A to B

Hunting Equipment Legal by Season

- Modern guns, muzzleloaders or archery equipment may be used during modern gun seasons.
- Hunters may carry only muzzleloaders and archery equipment during muzzleloader deer or bear seasons.
- Hunters may carry only archery equipment during archery deer and bear seasons.
- **Concealed weapon permit holders may carry a modern handgun during any season, but may not use it for any hunting purpose, unless the weapon is legal for that season.**

Hunter Orange Requirements

Hunter orange, chartreuse or blaze camouflage must be worn by all hunters and those accompanying or assisting hunters during modern gun or muzzleloader deer, elk and bear seasons.

The colored area of the garment must total at least 400 square inches above the waist. In addition, a

hunter orange or chartreuse head garment must be worn. If you are hunting in an area closed to firearms deer, elk and bear seasons or if you are hunting migratory birds, these safety colors are not required.

For hunter orange requirements on hunting blinds, see page 73.

Hunting Dogs

Each hunting dog must have a collar with its owner's name, phone number and address. Waterfowl retrievers do not need to wear collars while hunting or retrieving as long as the collar bearing the owner's name, address and phone number is carried. Handguns or shotguns with blank ammunition may be used while training bird dogs.

Individuals or organizations may hold captive on a temporary basis raccoons, foxes, coyotes or pen-raised quail for the purposes of dog training or sanctioned field trials with the approval of the AGFC Chief of Wildlife Management.

Using dogs to chase wildlife for pleasure is prohibited April 1-May 15 with these exceptions: 1) hunting within fox and coyote enclosures, 2) during sanctioned field trials, and 3) chasing for pleasure is allowed from 60 minutes after sunset until 60 minutes before sunrise.

Coyotes and foxes may not be chased for pleasure during a firearms deer season where dogs are prohibited.

During the youth turkey hunt, the use of dogs to chase wildlife is only allowed from 60 minutes after sunset to 60 minutes before sunrise.

Dogs may be used to chase deer for training purposes Oct. 1-Dec. 31, from 30 minutes before sunrise until 30 minutes after sunset, only in deer zones where dogs can legally be used for hunting deer during the modern gun deer seasons, except during a muzzleloader deer season. Possession of a killing device is prohibited when using dogs to chase wildlife for pleasure or when training/allowing dogs to chase deer unless a modern gun deer season is open when and where dogs are allowed.

Carcass Importation Restrictions

Possession of Game Taken Outside Arkansas

Carcasses of game animals legally taken in other states (**except cervid carcasses**) may be possessed in Arkansas with documentation of their origin. However, taking game illegally in another state and then transporting it across state lines is a violation of the federal Lacey Act.

Chronic Wasting Disease

Currently, 39 states and 6 Canadian provinces have adopted regulations affecting the transportation of hunter-harvested cervids. In October 2005, the Arkansas Game and Fish Commission approved a carcass importation restriction to further increase Arkansas's

protection against chronic wasting disease (CWD).

A cervid is any member of the Cervidae family, including white-tailed deer, elk, moose, red deer, sika deer, fallow deer, mule deer and caribou.

It is unlawful for hunters to import, transport or possess in Arkansas any portion of a cervid carcass other than the items listed below from outside the boundaries of Arkansas. Deer harvested between the Mississippi River levees in neighboring states of Tennessee and Mississippi are excluded from this regulation. Deer or elk harvested in commercial wildlife hunting resorts in Arkansas may be transported or possessed provided that a Chronic Wasting Disease sample is collected.

Hunters may bring the following items back into Arkansas:

- Antlers and/or antlers attached to clean skull plates or cleaned skulls (where no meat or tissues are attached to skull)
- Meat with bones removed
- Cleaned teeth
- Finished taxidermy products
- Hides and tanned products

Arkansas Natural Heritage Commission

The Arkansas Natural Heritage Commission's system of natural areas represents some of the best, and last, remnants of Arkansas's original natural landscape. Lands within the System of Natural Areas provide vital habitat for imperiled plant and animal species. Inclusion and recognition of some Natural Areas in the Wildlife Management Area system ensures these lands are protected, while providing opportunities for public use.

Every effort has been made to provide maximum opportunity, maintain safety, protect healthy wildlife populations and adhere to the conservation values that resulted in the Natural Heritage Commission's inclusion of these properties in the System of Natural

Areas. Management activities (prescribed burns, site monitoring, nonnative species removal) may occur during various hunting seasons.

Travel within these natural areas is limited to foot traffic

to minimize erosion and disturbance to sensitive habitats. Motorized vehicles, horses, camping and construction of permanent hunting stands are prohibited on ANHC natural areas. The Arkansas Natural Heritage Commission regulates removal of vegetation and nongame animals through collection permits.

Some areas have limited access and it is the hunter's responsibility to obtain permission to access adjacent private landowner's property.

USDA Forest Service Regulations

Ozark-St. Francis National Forest
 479-964-7200 • www.fs.usda.gov/osfnf

Ouachita National Forest
 501-321-5202 • www.fs.usda.gov/ouachita

For controlled burn information and to receive a schedule of controlled burns on USFS lands, please call 501-321-5232.

In addition to state and federal game and fish laws, the following regulations apply to USDA National Forests:

Camping

Designated camping facilities are available. Some campgrounds require a fee. Undeveloped campsites are first come/first served basis and cannot be reserved. Undeveloped campsites may be occupied for no more than 30 consecutive days. Developed campsites may be occupied for no more than 14 consecutive days. Camping or operating/parking motorized vehicles is not allowed in wildlife openings or food plots.

Leaving a campfire unattended or allowing it to escape is prohibited. Note: The party responsible for allowing a fire to escape could be liable for suppression and damage costs.

Removing any forest product without permit or contract is prohibited. Gathering firewood that is dead and down for camp use is allowed.

Damaging or removing a natural feature or other property of the U.S. is prohibited. This includes any vegetation, road, soil, timber, structure or artifact. (The possession or use of metal detectors within a prehistoric, historic or archaeological site is prohibited.)

Constructing roads or structures (including tree stands) without authorization is prohibited.

Portable tree stands are allowed but must be removed by season's end. **Note:** The Ouachita National Forest requires all tree stands to be moved within 14 days of their original placement.

Baiting game species is prohibited.

Discharging a firearm or other implement capable of taking human life on or across a Forest Service road or within 150 yards of a campsite, residence or occupied area is prohibited.

Vehicles

The Ouachita and Ozark-St. Francis National Forests have designated systems of roads and trails for public motor vehicle use. Any road or trail not classified for motorized vehicle use is closed. Operating any motorized vehicle on a road posted as closed, closed by an earthen mound, gate or other object, or not designated for motorized vehicle use in official Forest Service maps is prohibited. Maps of designated routes are available at www.fs.usda.gov/osfnf, www.fs.usda.gov/ouachita or any Forest Service office.

Abandoning personal property or littering (including dumping sewage) is prohibited.

Sanitary dump stations are at: Blanchard Springs, Cedar Lake, Lake Sylvia, Lake Wedington, Little Pines, Long Pool and Shady Lake recreation areas.

Interfering with the use of a road, trail or gate is prohibited. This includes placing a campsite, vehicle or other structure in front of a gate or open road.

Violation of any state traffic law. This regulation applies to all National Forest roads and any state highways or county roads crossing National Forest land.

Possessing an alcoholic beverage is prohibited.

This includes possessing an open container of alcohol in a motor vehicle, or while in the act of hunting.

Who needs a permit?

Any party providing commercial outfitting or guiding services on National Forest land for profit or nonprofit must have a permit. This includes all businesses providing services on NFS lands. Contact the nearest Ranger District office to the activity or visit www.fs.fed.us/passespermits/ for more information.

Do not transport firewood onto campgrounds!

Stop the spread of invasive insect species. Use local sources for firewood.

Feral Hogs

A Growing Threat to Arkansas Wildlife

Hauling Hogs Illegal

Act 723 of the Arkansas General Assembly prohibits the possession, sale and transport of live feral hogs. Penalties for violating this Act may include loss of hunting and fishing rights for up to five years. For more information, visit www.agfc.com or www.arkleg.state.ar.us/assembly/2015/2015R/Acts/Act723.pdf.

Background

Feral hogs are any free-roaming hog on public or private land. They are not native to North America and are highly invasive. In Arkansas, feral hogs are considered a public nuisance. They are a pest that destroys wildlife habitat, consumes eggs, and young of ground-nesting birds and outcompete deer and other native wildlife for acorns and other resources.

Threats

Feral hogs are highly mobile vermin and are reservoirs for disease. They can carry more than 45 viruses, bacteria and parasites that can be transmitted to humans or livestock, some of which include tularemia (rabbit fever), brucellosis, leptospirosis, trichinosis and pseudorabies, a swine herpes virus.

Control

Trapping is often the most efficient and cost effective method to reduce feral hog populations. Trapping efforts on AGFC-owned and controlled properties will be evaluated using a coordinated and strategic approach. If these efforts are determined to be effective, they will be implemented in a sustained manner.

Recreational hunting of feral hogs is not a viable method to reduce the hog population. This method can be used to temporarily displace hogs while protecting agricultural crops, food plots or other high value resources. The likelihood of encountering a feral hog during recreational hunting efforts is low. Although it seems a contradiction, hunters who specifically target feral hogs interfere with the AGFC's efforts to remove them from AGFC-owned properties. Considerable effort is spent conditioning a group of hogs to come to a site so they can be caught in a single trapping action. Human activity may remove one or more hogs. The result of shooting and hunting often moves the remaining hogs to other areas, forcing staff to begin the expensive and time-consuming process at a new location.

Recreational hog hunting has been shown to reduce hog populations by as little as 8 percent to as much as 50 percent depending on the type of habitat being hunted, the particular method of take being utilized and the intensity/duration of the hunting effort. Studies show that at least 66-75 percent of a hog population must be removed each year just to keep the population at the same level. Because the ultimate goal is to eliminate feral hogs altogether, the AGFC sees no management value in promoting recreational hunting of feral hog populations on any public lands. Additionally, the AGFC cannot provide hunters with a list of private landowners with hog infestations due to potential for landowner-hunter conflicts.

Regrettably, sport hunting of feral hogs on AGFC-owned and controlled properties has grown to be more of a hindrance to removal and control than a benefit. On private property, feral hogs may be taken year round with any method, although it bears repeating that traditional hunting, as a means of reducing feral hog population, is far less effective than trapping.

Shooting Feral Hogs

On private land, feral hogs may be killed or trapped year-round with any method, by a landowner or anyone with the landowner's permission (except anyone who has had his or her hunting license revoked). All general regulations for hunting safety should be observed.

Hogs on Wildlife Management Areas

It is unlawful to hunt, possess or release live feral hogs on WMAs. However, feral hogs may be killed by hunters who are hunting bear, deer or elk during a firearm season with weapons legal for those seasons on the following:

Bald Knob NWR	Galla Creek WMA	Petit Jean River WMA

Hunters must comply with all hunting license and permit requirements. Feral hogs killed on WMAs can be taken for processing or left where they were shot. Hunters may not use dogs, bait or traps to take feral hogs on WMAs and may not take or attempt to take feral hogs at night. Please use gloves when field dressing hogs. Meat from feral hogs should be cooked to an internal temperature of 170 degrees Fahrenheit before consumption.

Feral hogs may be taken during any daylight hunting season using weapons legal for that season on the following:

Beaver Lake WMA	DeQueen Lake	Nimrod Lloyd Millwood WMA
Blue Mountain WMA	Greers Ferry Lake WMA	Norfolk Lake WMA
Dardanelle WMA	J. Perry Mikles Blue Mountain SUA	Ozark Lake WMA

All other WMAs not listed above are closed to feral hog hunting.

Quail, Rabbit and Squirrel

Quail

Statewide: Nov. 1-Feb. 7.

Daily limit - 6, possession limit - 12.

While training bird dogs, you may use handguns or shotguns with blank ammunition. Pen-raised quail may be taken with a Shoot-To-Kill Bird Dog Field Training Permit. This permit is available from your local wildlife officer.

Rabbit

Statewide: Sept. 1-Feb. 29.

Daily limit - 8, possession limit - 16.

Rabbits may not be hunted with rifles or handguns larger than .22 caliber rimfire or with muzzleloaders larger than .40 caliber unless a modern gun or muzzleloading deer season, bear season or coyote season is open. Rabbits may not be hunted with shotguns using rifled slugs or shot larger than T shot. Up to eight box traps (with interior dimensions up to 8 inches wide and 10 inches tall) may be used.

Squirrel

Statewide: May 15, 2015-Feb. 29, 2016 and May 15, 2016-Feb. 28, 2017. Dogs allowed.

Daily limit - 12, possession limit - 48.

Squirrels may not be hunted with rifles or handguns larger than .22 caliber rimfire or with muzzleloaders larger than .40 caliber unless a modern gun or muzzleloading deer season, bear season or coyote season is open. Squirrels may not be hunted with shotguns using rifled slugs or shot larger than T shot.

Crow

Statewide: Sept. 1-Feb. 21.
Open Thursdays through Mondays.

No bag limit.

Crows may not be hunted with rifles or handguns larger than .22 caliber rimfire or with muzzleloaders larger than .40 caliber unless a modern gun or muzzleloading deer season, bear season or coyote season is open. Crows may not be hunted with shotguns using rifled slugs, or shot larger than T shot. Crows may not be hunted over bait.

Furbearer Hunting

Furbearer Hunting Methods

Unless otherwise specified, furbearers may be taken with archery equipment, firearms no larger than .22 caliber rimfire or shotguns with shot no larger than T shot. Bobcats, opossums and raccoons may be taken at night when treed by dogs.

Badger, beaver, bobcat, coyote, gray fox, red fox, mink, muskrat, nutria, opossum, raccoon, river otter, spotted skunk, striped skunk and weasel are regulated as furbearers.

Gray Fox, Red Fox, Mink and Striped Skunk

Statewide: sunrise, Sept. 1-sunset, Feb. 29.
Day hunting only.

Bag limit is two per day. No bag limit for striped skunk. Foxes may be taken during daylight hours with firearms of any caliber. Refer to page 75 for hunting equipment legal on WMAs.

Opossum

Statewide: sunrise, Sept. 1-sunset, Feb. 29.
Day or night hunting; dogs are required for hunting at night.

Bag limit is two per day.

Bobcat

Statewide: sunrise, Sept. 1-sunset, Feb. 29.

Statewide: sunrise, Sept. 1-sunset, March 31.
Day hunting only.
No bag limit.

Badger, Spotted Skunk and Weasel

Statewide hunting: closed.

Furbearer Trapping

Badger, beaver, bobcat, coyote, gray fox, red fox, mink, muskrat, nutria, opossum, raccoon, river otter, spotted skunk, striped skunk and weasel are regulated as furbearers.

Residents 16 and older must have a current Resident Trapper Permit in addition to a hunting license to trap furbearers. Nonresidents 16 and older must have a current Nonresident Trapper Permit in addition to a hunting license to trap furbearers. Trapper Permits are valid during open trapping season. Both permits are available from www.agfc.com or by calling 800-364-GAME, ext. 6333.

Furbearer Trapping

Statewide: sunrise, Nov.7-sunset, Feb. 29.
Excludes coyote, beaver, muskrat and nutria.

No bag limit.

Coyote

Statewide: sunrise, Aug. 1-sunset, March 31.

No bag limit.

Beaver, Muskrat and Nutria

Statewide: sunrise, Nov. 7-sunset, March 31.

No bag limit.

Checking Requirements

Traps must be checked daily except kill traps which shall be checked within 72 hours.

Permissible Land-Set Traps

Smooth-jawed foothold traps with a jaw spread of 6 inches or less (measured from the inside edge of the trap at the dog)(traps in excess of 5 inches

must have offset or rubber-padded jaws); body-gripping traps with a jaw spread of 6 inches or less (measured on the inside edge of the trap from hinge-to-hinge and from top-to-bottom at the dog and may not exceed the specified maximum size either horizontally or vertically); and box traps.

Permissible Water-Set Traps

Smooth-jawed foothold traps with a jaw spread of 8.5 inches or less (measured from the inside edge of the trap at the dog); body-gripping traps with a jaw spread of 11 inches or less (measured on the inside edge of the trap from hinge-to-hinge and from top-to-bottom at the dog and may not exceed the specified maximum size either horizontally or vertically); and box traps.

Snares

Leg snares are prohibited. Snares are allowed in water sets. Snares are allowed on land, but land snares set farther than 20 feet from a permanent body of water must have a functional "deer lock" that prevents them closing smaller than 2½ inches. Land snares must have a single-piece lock and must be braided cable with a loop no larger than

It is a violation to interfere with legal trapping, including tampering with or destroying traps set by someone else.

12 inches in diameter (from side-to-side) and the bottom of the loop no higher than 10 inches from the ground. No snare may be set or maintained in a public road right-of-way or touch any fence when fully extended.

Bait

Animal matter may not be used as bait within 20 feet of a trap set unless it is covered. Bait must be covered in such a way as to withstand wave action, wind action or other normal environmental conditions that could cause it to become visible.

Identification

Traps, including snares, must have either the trapper's name and address, their driver's license number, their vehicle license plate number or customer ID number.

Pelts: Untanned pelts must belong to species of furbearers that have an open season in Arkansas. Shipments of untanned green pelts originating

in Arkansas must display the name, address and license number of shipper, date of shipment and the words "Fur Pelts."

Bobcat and river otter pelts must be tagged by an AGFC employee before being shipped out of state. Possession of untagged river otter pelts from April 1 to the beginning of the river otter hunting season is not allowed except for those taken with a depredation permit.

Fur Dealers

Anyone purchasing or reselling furbearer pelts or carcasses is required to have a fur dealer permit and complete the AGFC Fur Dealer Report daily. Arkansas residents purchasing tanned pelts, taxidermy mounts or whole carcasses of legally taken furbearers for personal use do not require a dealer permit and report. The Fur Dealer Report must be made available for inspection by AGFC employees and be submitted to the AGFC by May 5.

Elk

- A permit is required. Nonresidents are ineligible to take or attempt to take elk using a public land permit obtained through the permit draw process.
- The application period for public land is May 1-June 1 with permits selected by random draw in late June. The application period for private land permits is June 1-July 15.
- All WMAs are closed to elk hunting except for Bearcat Hollow, Gene Rush and Buffalo National River WMAs.
- Crossbows may now be used to harvest elk.
- Information and applications can be found at www.agfc.com or by calling any AGFC regional office.

Alligator

- A permit is required. Nonresidents are ineligible to take or attempt to take alligator. Youths under 16 years of age are ineligible.
- The application period is June 15-30.
- All WMAs are closed except Dr. Lester Sitzes III Bois d'Arc WMA, Sulphur River WMA and Trusten Holder WMA.
- Information and applications can be found at www.agfc.com or by calling any AGFC regional office.

Bear

Statewide Bear Season Zone Regulations

Archery Season

Zones 1 and 2: Sept. 26-Nov. 30
(Zone 1 closes earlier if zone quota is reached)

Zones 3, 4, 5, 5A, 6 and 7: closed.

Muzzleloader

Zones 1 and 2: Oct. 17-25
(Zone 1 closes earlier if zone quota is reached)

Zones 3, 4, 5, 5A, 6 and 7: closed.

Special Youth Modern Gun Bear Hunt

Zones 1 and 2: Nov. 7-8
(Zone 1 closes earlier if zone quota is reached)

Notes for Zone 1 and 2: Excludes WMAs that require a deer permit to harvest a bear. Only youths, 6-15 years of age, may harvest a bear. Youths who have completed a hunter education course must be accompanied by an adult mentor who is 18 years of age or older. Youths who have not completed a hunter education course must be under the direct supervision of an adult mentor who is 21 years of age or older.

Zones 3, 4, 5, 5A, 6 and 7: closed.

Zones 3, 4, 6 and 7: closed.

Seasonal Bag Limit

Season bag limit is **one** statewide in bear zones 1, 2, 5 and 5A by any method.

Bear Zone Map

**Taking a bear with a radio collar is illegal.
Please don't shoot bears with cubs.**

Harvest Quota

In bear zone 1 (including all WMAs in zone 1) the quota is 205 bears for the months of September and October and 250 bears total for all seasons combined. In bear zone 5 the quota is 10 bears. The bear zone 5A quota is 5 bears. Bear hunters must call **800-440-1477** the evening before hunting the next day to inquire whether the quota has been reached.

Use WMA/NWR number instead of bear zone number when hunting on a WMA or NWR.
WMA/NWR regulations and dates (pages 66-125) apply when hunting on a WMA or NWR.

Tagging and Checking a Bear

Step 1. Immediately upon taking a bear (before moving it), fill out the game tag provided in this guidebook in ink. You may substitute a piece of paper for this tag if it includes the hunter's name, the date and bear zone of harvest written legibly in ink.

Step 2. Call **866-305-0808** within 24 hours of harvest to check a bear. Successful hunter must submit a premolar to fulfill the check requirement for a bear. The picture below explains how to extract a premolar. A premolar must be submitted within 7 days AFTER you receive your premolar package form AGFC.

Baiting

Bait, foodstuffs or the use of any kind of lure to attract bears is not allowed except on private lands in bear zones 1, 2, 5 and 5A, 30 days before the opening day of the first bear season until the last day of the last bear season in each respective bear zone.

Special Bear Regulations

- It is unlawful to take or attempt to take a bear wearing a radio telemetry collar.
- It is unlawful to take a denned bear or one that is being pursued by dogs.
- Hunting equipment legal for taking bear is the same as that legal for taking deer (page 23) except that shotguns must be 20-gauge or larger and use rifled slugs.

Attention Bear Hunters

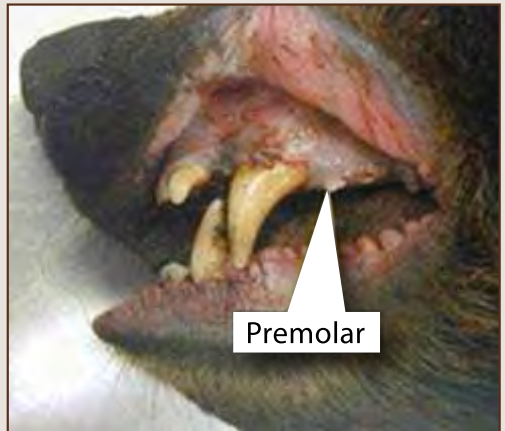

Hunters who successfully harvest a bear must submit a tooth within seven days of harvest.

How do I collect a tooth?

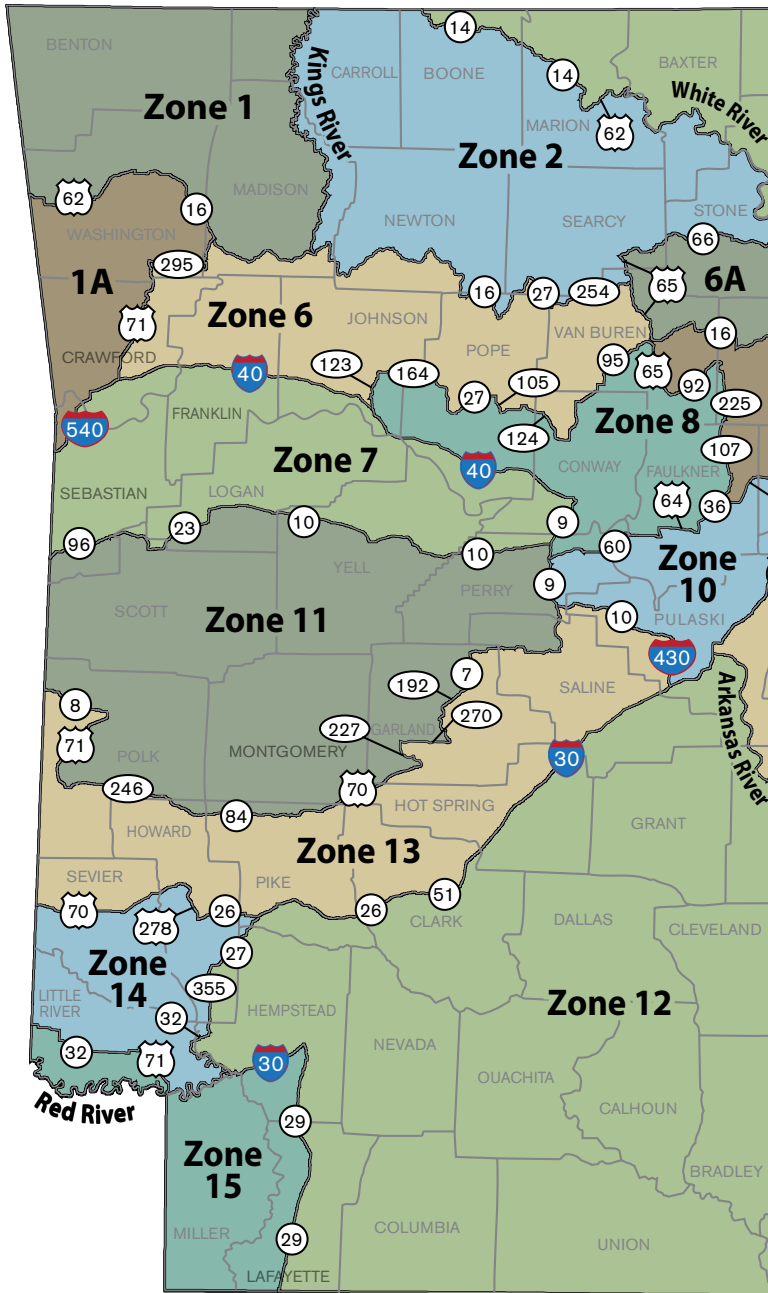

The upper and lower premolar tooth is right behind the canine tooth (see photo). Premolars generally come out of the jaw easily with a small flat awl, screwdriver or locking knife blade (be careful). First, cut the gum around the tooth. Then lift the tooth out gently by undercutting the premolar, using the curve of the canine tooth to guide you. The bear's age can only be determined by the root of the tooth, so be careful not to break the root as you extract the tooth. If you break the root, try extracting another premolar from the top or bottom.

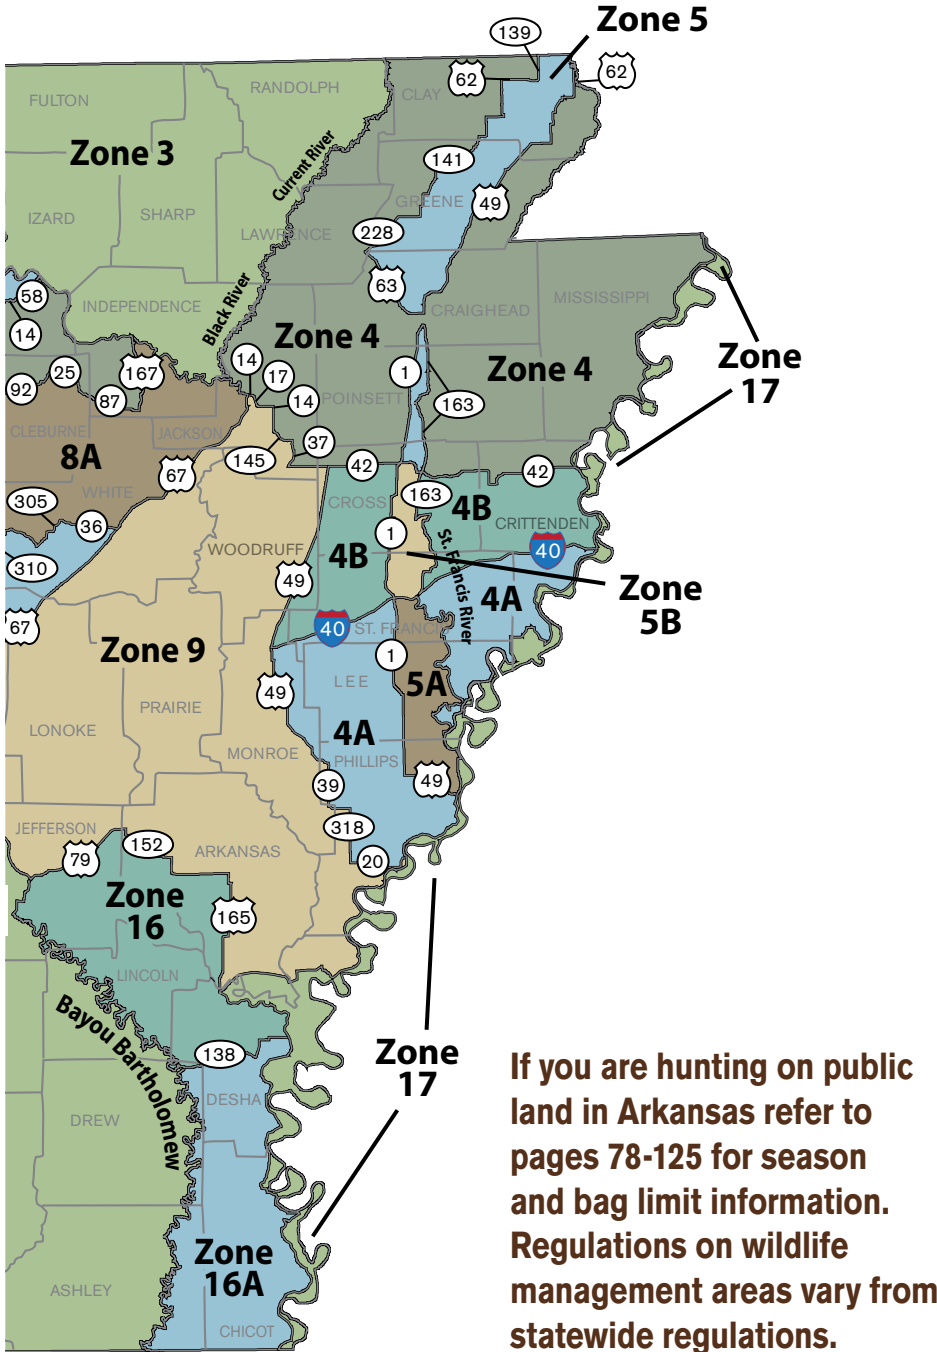

What is the need for submitting a tooth?

Aging harvested bears lets biologists accurately model bear populations and monitor the population structure. Age data must be collected from all harvested bears to better manage bear populations.

2015-16 Deer Zone Map

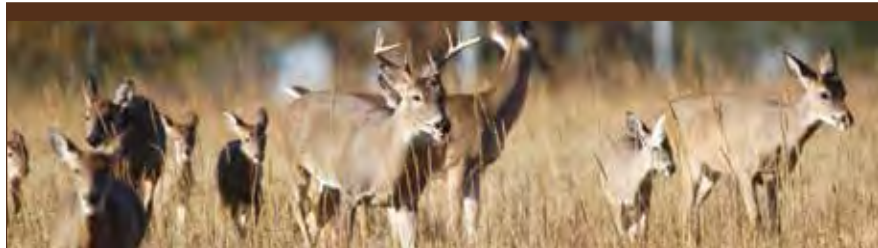

If you are hunting on public land in Arkansas refer to pages 78-125 for season and bag limit information. Regulations on wildlife management areas vary from statewide regulations.

Deer

Refer to pages 40-41 for deer zone map.

Statewide Bag Limit

The seasonal statewide bag limit is six deer of which no more than two may be bucks. The statewide seasonal limit may be taken in any combination of zones or methods, as long as individual zone bag limits are not exceeded. Antler-point restrictions do not apply to hunters 6 to 15 years of age.

Deer Seasons and Regulations by Zone

The following regulations are for private land and for public land that is not part of a Wildlife Management Area or a National Wildlife Refuge. Each Wildlife Management Area and National Wildlife Refuge is an individual zone. See pages 66-125 for public land zone numbers and regulations.

Special Youth Modern Gun Deer Hunt

All zones: Nov. 7-8 and Jan 2-3. Youths 6-15 years of age may harvest deer during the special youth modern gun deer hunt. Youths who have completed hunter education must be accompanied by an adult at least 18 years old. Youths who have not completed hunter education must be under the direct supervision of an adult at least 21. Adult mentors who accompany youths may not carry a firearm. Youths may harvest either-sex deer during the hunt, but must follow deer zone and WMA zone restrictions. Youth hunters may harvest any buck without regard to antler size or points. All deer harvested during the youth hunt will count toward the youth's seasonal bag limit. 65+ hunters can not hunt during a youth hunt while accompanying a youth. No dogs.

Exceptions:

- Archery tackle may be used by legal hunters during the youth hunt, but all hunters must wear hunter orange.
- Some WMAs with permit-based deer hunts (check pages 78-125) are closed to the Special Youth Modern Gun Deer Hunt.

"Direct Supervision" is defined as within arm's reach.

"Accompanied By" is defined as within the range of sight and sound without the aid of electronics or optics.

Private Land Antlerless Only Modern Gun Hunt

Zones 1, 1A, 2, 3, 6, 6A, 8, 8A, 9, 10, 12, 13, 14, 15, 16, 16A and 17: Oct. 10-14. All deer harvested during the antlerless only modern gun hunt will count toward the seasonal bag limit. Archery tackle may be used to harvest bucks during the antlerless only modern gun hunt, but all hunters must wear hunter orange. No dogs.

Tagging and Checking a Deer

Step 1. Immediately upon taking a deer (before moving it), fill out the appropriate deer tag from your license and complete all information, except Check #, legibly and in ink. Fasten the tag to the ear or antler. The original tag must remain as attached to the deer until point of final storage. **If the head is removed, duplicate harvest information reflecting the name, address, species, sex, date taken and check confirmation number must remain with all other portions until point of final storage, including while in transit (page 28).**

- Hunters with disability licenses, 65 Plus Lifetime hunting licenses, hunters 6 to 15 years of age, holders of any permanent license issued by the Commission and Mississippi license holders hunting under the reciprocal hunting license agreement (page 14) may use the game tags in this guidebook or substitute a piece of paper with their name, the date, time and zone number of harvest written legibly in ink.
- Use the deer zone map on pages 40-41 for deer zone numbers.

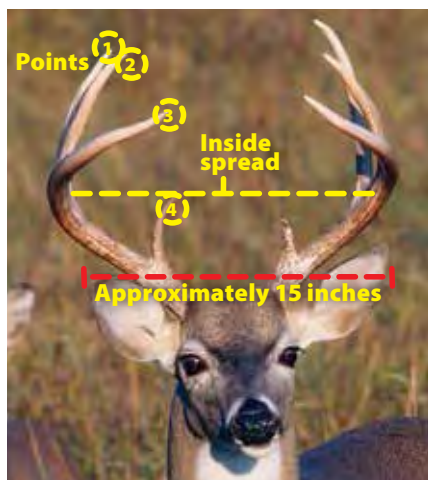

- Use the WMA zone map and index on pages 66-72 for WMA zone numbers for deer harvested on WMAs.

Step 2. Call 866-305-0808, visit www.agfc.com or use our **mobile app** to check your deer within 24 hours of harvest.

- After checking game, record the check number on your tag.
- Entrails may be removed, but evidence of the animal's sex must remain until checked. Deer may be quartered in the field, but the head must be kept within arm's reach of all four quarters of the animal until checked.
- No big game animal may be transported across state lines before being checked unless normal travel routes require a hunter to cross a state line to check the animal.
- If you choose to give away all or a portion of your game after it has been checked, you must use a game transfer form (page 29).

BOWHUNTERS! Don't forget to wear hunter orange during the Special Youth Modern Gun Deer Hunt, Nov. 7-8 and Jan. 2-3 and the Private Land Antlerless Only Modern Gun Hunt, Oct. 10-14.

What is a Legal Buck?

When counting the number of points, the end of the main beam constitutes one point. Points must be at least 1 inch long to count. The distance from ear-tip to ear-tip on a buck with ears in the alert position is approximately 15 inches. Use this as a guide for determining a buck's inside spread. Estimating a buck's main beam length can be a little more difficult to estimate and may require frontal and profile views. If the antler seen from the side projects forward beyond the midpoint between the eyes and the tip of the nose, beam length of the buck likely exceeds 18 inches.

Youth hunters: Youths 6 to 15 years of age may harvest any buck without regard to antler size or points.

Three-point rule: A legal buck must have both antlers shorter than 2 inches (button buck) or have three or more points on one side of his rack. The three-point rule applies statewide unless mentioned below.

12-inch inside spread or 15-inch main beam rule: A legal buck on Dr. Lester Sitzes III Bois d'Arc, Harold E. Alexander Spring River, Hope Upland, Lafayette County WMA, McIlroy Madison County, Mike Freeze Wattensaw, Scott Henderson Gulf Mountain, Shirey Bay Rainey Brake and Moro Big Pine Natural Area WMAs must have either:

- both antlers under 2 inches (button buck), or
- an inside spread of at least 12 inches, or
- at least one main beam 15 inches or longer.

15-inch inside spread or 18-inch main beam rule: A legal buck in deer zones 16, 16A and 17 and on Bayou Meto, Buck Island, Cut-Off Creek, Dave Donaldson Black River, Ed Gordon Point Remove, Freddie Black Choctaw Island WMA Deer Research Area East Unit, Henry Gray Hurricane Lake, Rick Evans Grandview Prairie, St. Francis National Forest, Sheffield Nelson Dagmar and Trusten Holder WMAs must have either:

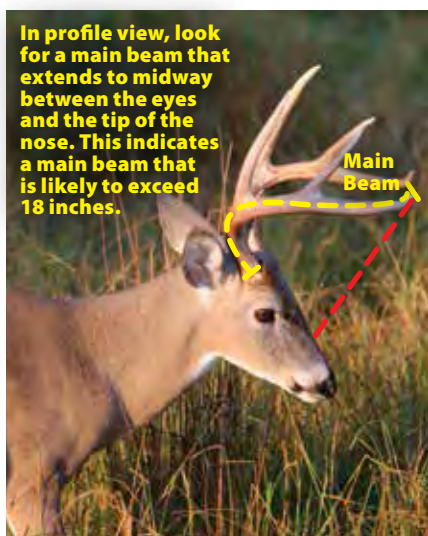

- both antlers under 2 inches (button buck), or
- an inside spread of at least 15 inches, or
- at least one main beam 18 inches or longer.

Other legal definitions:

On Bald Knob, Big Lake, Cache River, Felsenthal, Holla Bend, Overflow, Pond Creek, Wapanocca and Dale Bumpers White River NWRs; Rex Hancock Black Swamp and U of A Pine Tree Experimental Station WMAs any buck deer may be legally harvested during all deer hunts.

On Greers Ferry Lake and Lake Greeson WMAs any buck may be legally harvested during the deer muzzleloader Mobility Impaired permit hunt.

On Hobbs State Park Conservation Area, J. Perry Mikles Blue Mountain SUA and Johnson County WRA on Dardanelle WMA, Wedington WMA and White Rock WMA any buck may be legally harvested during the deer modern gun mobility impaired hunt.

2015 MIGRATORY WATERFOWL STAMP PRINT

“Arkansas Prairie - Snow Geese”

THE PROGRAM:

The year 2015 marks the 34th year of the Arkansas Duck Stamp program. The program has raised over \$12 million which has been used by the Arkansas Game & Fish Commission for waterfowl research and to acquire land for the creation of safe refuges for our abundant wildlife. Our rich heritage is steeped with stories of “flooded timber hunting,” the “original duck and goose call makers” and “old time serious duck and goose hunters and their camps.” It is little wonder that our Duck Stamp program is the most successful of them all. (Save your stamps.)

“Arkansas Prairie - Snow Geese” by Dave Maass is the fourth painting that he has done for the Arkansas Duck Stamp program!

THE ARTIST:

David A. Maass’ career as a wildlife artist spans six decades. His reputation as one of the foremost painters of nature art did not occur overnight. This kind of recognition and the earned respect of both his peers and the public has come one painting at a time, through years of skillful dedication to his avocation.

REMEMBRANCE

Who taught you how to fish and hunt?

Whether calling in a group of mallards in flooded timber, casting a line out to a lurking largemouth or tying on a special fly to attract a rising trout, take a moment to think of the first time you hunted and fished and who was beside you.

There's no better way to remember a loved one or companion who loved the outdoors than to make a memorial to the Arkansas Game and Fish Foundation. Donations "In Memory" of those special people ensure that the outdoor heritage we enjoy in Arkansas continues through future generations.

The Foundation will send a special letter to you and the family of the honored individual to say "thank you" for the memories they made possible.

General WMA Regulations

Hunters should review specific WMA regulations for the area they plan to hunt. Hunters should also check WMA road closures before heading out to hunt, fish or camp on specific WMAs by calling 800-440-1477.

On property owned, leased or cooperatively managed by the Arkansas Game and Fish Commission, you may not:

- disobey official signs.
- damage AGFC buildings, structures, signs or property.
- remove rocks, fruits, nuts, acorns, artifacts, plants or any other objects.
- burn timber, brush or grass.
- discharge or possess fireworks.
- burn materials containing nails, screws or other metal objects.
- leave a fire unattended or allow one to escape from control.
- bait wildlife, except when bait or lures are used in legally set traps during an open furbearer trapping season.
- cut trees.
- post signs.
- build, attach or occupy a permanent hunting stand, building, shelter or moored houseboat.
- leave personal property on a WMA, except trail cameras and legal portable stands and blinds (Page 73).
- operate a boat in a negligent or reckless manner. This may result in a one-year ban on the WMA where violation occurred. See the 2015-16 Waterfowl Guidebook for more info.

Hunting Stands and Blinds

A portable hunting stand is any device or structure used for the purpose of hunting that can be carried in its entirety by one person at one time including but not limited to tripod stands, lean-to stands, lock-on stands, ladder stands and climbing stands.

Portable hunting stands and blinds and associated equipment using no metal objects (such as screw-in steps) to be screwed or driven into trees may be used, but must have the owner's name and address permanently attached. Stands must be moved at least 200 yards after seven days.

Deer stands and blinds may not be placed on a WMA more than seven days before deer archery season and must be removed from the WMA within seven days after the close of deer archery season.

Portable, pop-up blinds must have 144 square inches of blaze orange or chartreuse visible from all sides of the blind during firearms big-game seasons on WMAs.

On USDA Forest Service lands, portable stands must comply with Forest Service regulations on page 27.

Vehicles

Any motorized vehicle including, all-terrain vehicles, dune buggies, and amphibious vehicles are restricted on WMAs. Motorized vehicles as listed previously may not be operated off any open access road or parking area, behind gated, cabled or earthen barriers, or on levees, dams, food plots, fire lanes or roads developed for wildlife. Hunters with Mobility Impaired Access Permits may use ATVs with certain restrictions (see page 74).

On leased lands WMAs:

- ATVs, motorcycles and bicycles are allowed on open, maintained roads within Cherokee and Jim Kress WMAs by hunters in possession of a valid leased lands permit for the purposes of traveling to and from hunting locations and/or camping sites only.
- Motorized vehicles, except for ATVs on main access roads, may not be used on Big Timber Upland Demonstration Area.
- ATVs are allowed on open roads and trails on Casey Jones, Gum Flats, Howard County, Lafayette County, Lake Greeson, Poison Springs (motorized vehicles are not allowed on boundary lines that have been cleared by the Arkansas Forestry Commission) and Provo WMAs by hunters for the purposes of traveling to or from hunting locations and/or camping sites during open hunting seasons only.
- ATVs are allowed on designated open, maintained roads on Big Timber WMA by hunters to access hunting locations and/or camping sites during open hunting seasons only. Use of ATVs on right-of-ways is prohibited unless designated as an open road.
- See page 98 for ATV use on Jack Mountain WMA.

Inholdings

Each WMA is a separate zone for which the Commission may establish and apply hunting regulations. All private lands (including any combinations of lands separately owned, and regardless of whether such lands touch a road, creek, stream, river, lake or other waterbody) that are completely surrounded by WMA lands (except NWRs) shall be considered as inholdings. Such inholdings shall be subject to the same regulations pertaining to hunting season dates, hunting hours, bag limits and hunting permits as the surrounding WMA.

Exception:

Private lands that are completely surrounded by NWR lands shall be subject to the same state regulations pertaining to hunting season dates, hunting hours, bag limits and hunting permits as the surrounding or nearest adjacent private land deer zone, plus any federal regulations pertaining to NWR inholdings.

On Ouachita and Ozark-St. Francis National Forests:

The Ouachita and Ozark-St. Francis National Forests have designated systems of roads and trails for public motor vehicle use. Any road or trail not classified for motorized vehicle use is closed. Operating any motorized vehicle on a road posted as closed, closed by an earthen mound, gate or other object, or not designated for motorized vehicle use in official Forest Service maps is prohibited. Maps of designated routes are available at www.fs.usda.gov/ouachita, www.fs.usda.gov/osfnf or any Forest Service office.

Mobility Impaired Access Permits

Mobility Impaired Access Permit holders may use ATVs on AGFC-owned WMAs on graveled, all-weather roads (unless posted closed to vehicles) and on designated signed mobility impaired access trails during hunting seasons with the following restrictions:

- Permit holders must hunt at least 100 feet but no more than 300 feet from graveled, all-weather roads. They may hunt anywhere within 300 feet of designated signed mobility impaired access trails.
- ATVs must remain on roads and/or trails except during a firearms deer season when ATVs must remain within 300 feet of centerline of road/trail.
- ATVs may be used only for stand placement and hunting.
- ATVs may be used beyond 300 feet from a road or mobility impaired access trail only to retrieve big game taken by the permit holder.
- Holders of AGFC Mobility Impaired Access (MIA) may operate ATVs only on designated mobility impaired access areas of Big Timber (Page 80), Jack Mountain (Page 98) and Moro Big Pine Natural Area WMA (Page 103).
- Permit holders must be able to see their ATV at all times while hunting.
- Firearms must be unloaded and cased while being transported by ATV.

Licensed sportsmen who meet the following criteria are eligible for Mobility Impaired Access Permits:

- A permanent physical condition requiring the use of a brace, cane, crutch, prosthetic device, wheelchair, walker or portable oxygen
 - A permanent cardiac condition classified as Class III or IV by the American Heart Association
- Applications are available at AGFC regional offices (page 1), by phone (800-364-4263 during business hours) or online (<http://tinyurl.com/AGFClicenses>).

Mobility Impaired Hunts

Permit deer hunts are available for mobility impaired hunters on Dardanelle, Freddie Black Choctaw Island East Unit, Greens Ferry, Hobbs State Park-Conservation Area, J. Perry Mikles Blue Mountain SUA, Lake Greeson, Trusten Holder, Wedington and White Rock WMAs and Dale Bumpers White River and Pond Creek NWRs. Refer to pages 78-125 for details.

Deer Permit Hunts

Hunting is allowed on several WMAs and NWRs only during special permit hunts to manage deer populations and prevent crowding. Only permit holders are allowed to engage in any hunting-related activity during permit hunts. Hunter education requirements have been removed for youth hunters 6-15 years of age participating in WMA permit hunts. Other hunting seasons, except waterfowl, are closed during permit hunts, unless otherwise noted on the back of the permit. Visit www.agfc.com from June 1 until July 1 to apply for a permit deer hunt. Permit notifications will be sent by email.

Leased Lands Permits

Permits are available for \$40 which entitle the holder to hunt, trap (trapper permit required) and camp on leased land WMAs -- Big Timber WMA, Casey Jones WMA, Cherokee WMA, Jim Kress WMA, Gum Flats WMA, Howard County WMA, Jack Mountain WMA, Lafayette County WMA, Lake Greeson WMA and Provo WMA. Each leased lands WMA requires a separate permit.

Youths 15 years of age and younger are not required to have a permit. Permits are valid for one year from the date of purchase. Maps of leased properties are provided when permits are purchased. Maps also are available at www.agfc.com.

Hunters must get permission from landowners to travel through neighboring private lands.

Some disabled hunts are coordinated through the Disabled Sportsmen of Arkansas.

Shooting From Roads

Shooting across, from or hunting within 100 feet of a public road on any WMA is prohibited (see exceptions below). See pages 66-72 for Leased Land WMAs in your area.

- Exception 1: Small game (excluding fox, bobcat and coyote) being pursued or treed by a dog or under the point of a dog may be taken within 100 feet from the centerline of a road on Big Timber, Casey Jones, Cherokee, Gum Flats, Howard County, Jack Mountain,

Jim Kress, Lafayette County, Lake Greeson, Moro Big Pine Natural Area and Provo WMAs provided the road is not city, county, state or federally maintained.

- Exception 2: Trappers may use legal firearms to harvest animals caught in legally set foothold and body-gripping traps.
- Exception 3: Licensed/permitted falconers may hunt with and trap birds of prey in accordance with state and federal falconry regulations.

Hunting Equipment

Killing devices or traps may not be possessed on WMAs unless a season is open. Rifles and handguns larger than .22 caliber rimfire, buckshot or rifled slugs may be used only during modern gun deer, bear or elk seasons or during daylight hours during bobcat, fox and coyote seasons. Muzzleloaders may be used during firearms season, except for muzzleloaders larger than .40 caliber, which may not be used on any WMA unless a muzzleloading or modern firearm deer, bear or elk season is open. Unless otherwise prohibited, bobcat, fox and coyote may be taken during daylight hours with firearms of any caliber during bobcat, fox and coyote seasons on AGFC-owned WMAs, Dardanelle WMA, Ozark Lake WMA and all U.S. Forest Service lands including WMAs lying within the Ouachita National Forest and the Ozark-St. Francis National Forest.

Concealed weapon permit holders may carry a modern handgun, except in places where otherwise prohibited under federal, state or local law or where not allowed by the landowner. Concealed weapon permit holders are not allowed to use their concealed weapon for any hunting purpose. All concealed handgun permit holders must identify themselves to a wildlife officer when complying with an inspection pertaining to birds, fish, game or other wildlife resources.

Hunting Dogs

Dogs are not allowed for hunting feral hogs on WMAs. Unless noted on specific areas, wildlife management areas are closed to dogs, except in the following instances:

- Quail and rabbit dog training is allowed Sept. 1-April 1, except during firearms deer hunts when dogs are not allowed.
- Quail hunting is allowed with bird dog breeds when quail season is open.
- Woodcock hunting is allowed with bird dog breeds when woodcock season is open.
- UKC, AKC and ACHA field trials are allowed when approved by the AGFC.
- Waterfowl retrievers may be used during open migratory bird seasons.
- Dogs are required for raccoon hunting at night from July 1 until March 31.
- Dogs may be used for hunting squirrel and rabbit in season except during firearms deer hunts when dogs are not allowed.

Horses and Mules

Pleasure riding and organized trail rides are allowed during February, March and June through September on AGFC-owned land and Cherokee, Jim Kress, Poison Springs and Jack Mountain WMAs. Permits for organized events involving 10 or more horses or mules are available by request from wildlife management area headquarters and must be obtained at least two weeks in advance of the event. Horses and riders are restricted to established trails or roads. Horses and mules are allowed only in camping areas that are designated for equestrian use. Horses in camping areas may be tied to trailers or to a highline using tree saver straps. Horses or mules may not be allowed to damage trees or other woody vegetation. Soil disturbance must be restored, manure must be scattered and excess feed, hay and any trash must be removed. Please contact the individual National Forest for specific details.

Unless otherwise noted for specific WMAs or SUAs, hunters may use horses or mules during open seasons on most WMAs or at night during furbearer season.

Vegetation Destruction

On all WMAs, with the exception of campers in designated campgrounds, it is illegal to use or possess chainsaws, handsaws, hatchets, axes, weed trimmers, string trimmers or other cutting devices. Hunting knives, pocketknives and pocket saws are allowed. Chemical defoliants are prohibited.

The gathering of firewood that is dead and down for camp use is allowed.

Camping

Unless otherwise noted under a specific WMA, camping is limited to no more than 14 consecutive days and must be in a designated camping area. Camps may not remain unoccupied for more than 48 hours. Creating a disturbance after 10 p.m. is not allowed.

Camping is restricted to permit holders during permit hunts. Waterfowl hunters and nonhunters camping with a permit holder do not need to have a permit while camping. Loaded firearms are not allowed in camping areas or parking lots.

It is unlawful to import, transport, or carry firewood into a Commission-owned WMA by any means, or to cause to be imported, receive, or to assist in any manner in the importation of firewood into a Commission-owned WMA. "Firewood" means all wood of any species, cut or not cut, split or not split, regardless of length, which is (a) in a form and size appropriate for use as a fuel or (b) destined for use as fuel.

Possession of Alcohol or Illegal Controlled Substances

It is unlawful to possess illegal controlled substances on Commission-controlled WMAs. It is also unlawful to possess alcoholic beverages on Commission-controlled WMAs.

Except:

- on a private inholding.
- in a vehicle on a public road in compliance with applicable law.
- in a boat on a navigable waterway in compliance with applicable law.
- in a boat while fishing and in accordance with applicable law.
- individuals camping within designated camping areas.

Check antler restrictions on page 51 for important additional information. Check flood prone regions F and H on page 57 for important additional information. Horses, mules and ATVs are not allowed on U.S. Army Corps of Engineers property. The Trusten Holder WMA has been expanded to include U.S. Army Corps of Engineers lands north and east of the Arkansas River downstream from the Pendleton Bridge to just below Dam 2 (Wilbur D. Mills Dam) and to Lock No. 2, including Merrisach Lake, Arkansas Post Canal, Moore Bayou to the old Highway 1, one lane bridge and Post Lake to Highway 169. Hunting equipment on this portion of Trusten Holder WMA is limited to archery equipment and shotguns using T-shot or smaller. Muzzleloader deer season is closed on this expanded portion of Trusten Holder WMA. The National Park Service has made changes to the hunting boundary surrounding the Arkansas Post National Memorial. In areas where the park boundary follows the shoreline, a marked "no hunting" buffer zone (marked with signs or buoys) has been established to insure the safety of visitors to Arkansas Post National Memorial. Possession of a loaded firearm or discharge of a firearm within this boundary or the no hunting buffer zone is prohibited. Portions of Trusten Holder owned by the USFWS are closed to bear hunting. For access restrictions that affect all users during waterfowl season, check the waterfowl guidebook or visit www.agfc.com/trustenholderwma.

Deer Notes: No antler restrictions. No dogs. A doe must be harvested and checked at the Pond Creek NWR refuge station before a second buck may be harvested with any weapon (this does not apply to the modern gun youth and mobility impaired permit hunts).

Being an Arkansas-based company, SeaArk knows duck hunting and what kind of boat it takes to withstand the abuse that comes from it. The DXS Series features EXT (Extreme Turn Technology) for quick maneuverability to avoid trees and stumps. Heavy .100 gauge aluminum construction, .80 gauge treadplate floor, oversized extruded accessory adaptable caprail, and a 3/16" extruded center keel, all combined to give this series the strength needed for those heavy timber hunts.

Rabbit: Sept. 1-Jan. 31. Dogs allowed between Nov. 7-Jan. 31. Daily limit - 8, possession limit - 16.

Squirrel: Sept. 1-Jan. 31. Dogs allowed between Nov. 7-Jan. 31. Daily limit - 12, possession limit - 48.

HUNTERS CAN HELP

Invasive Species are not wanted in Arkansas. They can destroy the woods we have come to enjoy. So when you are out scouting or hunting be on the lookout for these invasive species. Please report any suspected findings.
