

Become a Member of Land Conservation Assistance Network today!

Our land owners, farmers, ranchers, forest owners are the stewards of 71% of our nations land. These lands support wildlife habitat, protect our valuable water supplies, and provide fertile soils to grow our food.

It is critical that these open spaces, with their wildlife habitats, are protected.

Show your support for farmers, ranchers, and forest owners. With your help, we can continue to support their work and save habitat, protect our natural resources, assist with the intergenerational transfer of land, and keep valuable lands from being developed.

Member Benefits

- ✓ Receive our monthly e-newsletter.
- ✓ Help strengthen and sustain our rural communities and habitat throughout the U.S.
- ✓ Receive quarterly updates from President Amos Eno on local and national conservation efforts.

Select Your Annual Membership Level - join us in helping private landowners
