

2013 PINEMAP

Professional Development Series: Soils Shortcourse

Are you a professional forester or resource manager interested in learning more about forest soils and the crucial role they play in our woodlands? If so, you won't want to miss the upcoming **PINEMAP Forest Soils Crashcourse!**

This three part webinar series will kick off a monthly schedule of content aimed at you, the professional forester!

WHERE: <http://forestrywebinars.net>

WHEN: October 17 – 19 at 4:00 pm EST.

2013 PINEMAP Soils Shortcourse Schedule

An Introduction to Soils: Getting Grounded

October 16, 4:00 PM EST

Daniel Markewitz, Professor

Warnell School of Forestry and Natural Resources,
University of Georgia

This first session offers a brief refresher on soil basics, including how to identify specific soil types, as well as what you need to know to understand how they impact your trees.

Soil Mapping: An Overview

October 17, 4:00 PM EST

Ed O'Brien, Forester & Geoscientist

Forestry & Land Resource Consultants, Inc.

A look at the intricacies of soil mapping, and how to read and interpret various maps and scenarios.

Expected Responses: Management Implications

October 18, 4:00 PM EST

Eric Jokela, Professor

School of Forest Resources & Conservation
University of Florida

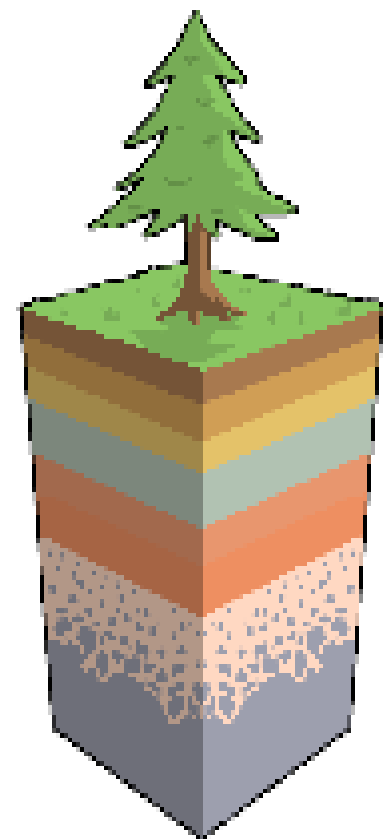

In this final session, everything comes together as you learn how previously introduced concepts come into play when making stand management decisions.
